Latest Developments in Pavement Construction and Maintenance (LDCPM)

A two-day National Level Faculty Workshop on “Latest Developments in Pavement Construction and Maintenance (LDCPM)” under TEQIP-II was inaugurated by renowned Civil Engineers of L & T Infrastructure Developmental Projects Ltd, Chennai: Er. V. Durga Prasad and Er. Anil Kumar on 26th July, 2013 in Sree Vidyanikethan Engineering College. In their address they emphasized the importance of modern pavement construction and its maintenance for rapid economic development of the Nation and recalled the latest developments in this field during the last decade. They also expressed their concern on slow pace of research in this direction.

In his address Prof. T. Gopala Rao, Special Officer, explained the need for roads & communications which form the basis for economic development. He felt that the roads reflect the culture and the economic progress of the Nation.

Prof. D.V.S. Bhagavanulu, Director; Prof. P.C. Krishnamachary, Principal; Sri O. Eswara Reddy, Head of Civil Engineering Department; Prof. B. Mohan; members of faculty; participants from various engineering colleges and practicing civil engineers participated.
