GUEST LECTURE

A Guest lecture on “Anticancer activity of Tolfenamic acid: Preclinical Studies” by Dr. Riyaz Basha, Senior Research Scientist and Assistant Professor, Cancer Research Institute, MD Anderson Cancer Centre, Orlando, USA is arranged for B.Tech and M.Tech students in Dasari Auditorium on 10th July 2012 (Tuesday) at 11.00 AM. In his address he explained the concept of cell division in cancer and translational research (From Bench to Bed). He also emphasized on the importance of protocol before conducting experiments on animals. He shared his expertise and experience on the role of Tolfenamic acid in treating pancreatic cancer.
