I am neither a scholar nor a philosopher. I am not an authority to give a discourse on eternity. what I learnt is film acting and what I have is an unflinching faith in God and connectivity to the people around me. The love and concern for the people who made me what I am today impelled me to establish Sree Vidyanikethan. I am happy that Sree Vidyanikethan Engineering College has achieved autonomous Status which testifies the vision of the Management and commitment of the faculty and staff. My ambition in life is to make Vidyanikethan a University with world class facilities within a short time. I assure all the stakeholders that we will provide quality education with renewed commitment.

With love

(M. Mohan Babu)
Chairman

MILESTONES
